TAC-M7 MODULAR VEST

TAC-M7 戰術模組背心

J-TECH TAC M-7 Multi-purpose vest has the same design and idea of the US Army Forces, NATO forces, and around the world law enforcement agencies which use the same quality and standards. M-7 material is made of 100% nylon and 1000 denier. It uses double sewing lines, so each area that requires extra strength is strongest sewn. It is light and breathable when wearing it. You can carry many loads in this vest and can be pulled with its high tensile strength, very durable in all weather environments. With the multi usage modular accessories, you can carry various types of ammunitions and support accessories for any mission's requirements. Automatic rifles magazines, submachine gun magazines, automatic pistol magazines, pistols, CB Radios, First Aid Kits, Night Vision Goggles, and any other accessories can be attached by velcro and buttons in this amazing modular vest. For any mission flexibility, it can be adapted accordingly with its modular pouches packages to suit any requirements.

It is ergonomically designed, making it important for a comfortable wear in any long mission at land, sea or air without any disturbance during missions or shooting movements. This is the best choice for the Special Forces and SWAT personnel. The waist of the J-TECH TAC M-7 is adjustable up to 50 inches range, where you can wear any kind of body armor inside this vest and with its freedom of movement, it will not disturb any combat mission. You can easily reach your important gear or ammunition on the pockets of the vest. Under the vest there are 6 reinforced loop rings to hook over the standard web belt, there are 3 straps on the back of the vest where you can attach ALICE gear system and also on the back there is an inner layer for an optional hydration system. There are 2 inner layers on both sides of the vest where you can put maps or documents.
